OBJECTIVE: TO CREATE DIGITAL USER EXPERIENCES THAT MAKE A DIFFERENCE

I'm a UX/UI designer who specializes in creating high-quality, user-friendly and visually compelling online experiences that help enable end users in achieving goals. I'm also an artist with years of experience in conceptualizing and creating illustrations, animations and motion graphics for various communication and visualization needs. I've designed, directed and delivered hundreds of projects for a variety of clients and industries during my career. I possess the ability and experience to provide leadership and hands-on contributions towards the culture, products, projects and financial success of my workplace.

EXPERIENCE▶ **Sr. UX/UI Designer****PCD Group – Portland, OR**

12/07 – PRESENT

Design of UX/UI solutions for responsive websites, web applications, CMS, CRM, event planning tools, calculators, training demos, social media campaigns, online membership communities, etc. Conceptualize and create storyboards, sketches, illustrations, icons, photography and other visual components for websites. Conduct research and provide expertise in usability. Write marketing messages, instructive copy and SEO copy for web pages and web applications.

Partner with clients to help provide strategic planning and tactics to effectively target and deliver upon business objectives. The types of artifacts I've authored are included in the "Skills" section of this résumé.

Lead teams of designers, illustrators, copywriters, videographers and programmers to provide creative vision and champion a high standard of user-centric digital experiences and visual aesthetics.

Our clients include Citibank, Norton LifeLock, TIAA CREF, Bethpage Credit Union, et al.

▶ **Art Director/UX/UI Designer****Kennedy Communications – Vancouver, WA**

04/07 – 07/07

Creation of concepts, designs and art direction of marketing communications materials, corporate identity systems and advertising
